

RATES FOR WRITTEN TRANSLATIONS

Our prices are competitive due to our localization and professional possibilities.

ABOUT THE RATES

1. The cost of translation is based on the quantity of words in the target (already translated) text, not in the original one. For the texts with hieroglyphics another calculation mode is applied.
2. There is a minimum order quantity: 300 words (1 text page), that will cost from 27 US\$.
3. For orders from 7,500 up to 15,000 words, a **discount** of 3% shall be applied. To obtain the special discount for orders with more than 15,000 words, or for texts containing many figures or that required special edition, please, consult with the Agency.
4. However, if the order has more than 25 pages, but, for example, it is urgent or the text has a certain thematic complexity (medicine, aviation, petroleum industry, etc.) , the first discount that will be applied is for a word's quantity, then a surcharge is added for the speed or thematic complexity.
5. Thanks to that our Translation Agency is a tax agent with a special regime, **the present rates are "clean"**: the value-added tax does not apply to the cost of the order - neither in Russia nor in the Community European countries and other ones from where you place the order (or where reside).
6. **The management fee is fixed and is 5 US\$**. It will also appear on the invoice, together with the number of translated words, the rate and cost of other Agency services, if any.
7. **The payment of the order is made via PayPal** or by **bank card as Maestro or MasterCard** (Visa cards, at the moment, do not guarantee that the payment arrives in Russia). To avoid problems, the Agency employee will ask about the most comfortable payment for you.
8. The order is delivered after confirming of the payment, that is why we recommend PayPal.
9. **The delivery of the order is free**, the order is sent by email except the special conditions of the Customer.
10. If you do not find the language pair (origin-destination) that you need, we can make a special discount for the double translation (from the source language to the second (intermediate), then the second to the destination one).
11. **The rates are in US\$**. If you have another currency (euro, pound, Canadian dollar, etc.), the payment will be subject to the daily exchange rate in relation to the USA dollar.
12. If you are outside the GMT-1 to GMT + 4 time zone, your request for a translation may take from 4 up to 12 hours to be processed.
